# Climbing Roses

## **Type:** Modern Rose

Despite what the name might suggest, climbing roses are not vines. They have solid stems and can be trained along trellises, fences or downspouts. Climbing roses give more flowers when they grow reclining and tend to have larger flowers that always bloom again in the same growing season.

# English Roses

## **Type:** Modern Rose

If you're seeking an enduring rose with a lovely fragrance, this could be for you! Available in a variety of colors, these roses have been carefully grown for dependability. Most of these roses are shrubby, making them good for any garden settings.

# Shrub Roses

## **Type:** Modern Rose

These are generally hardy and easy to care for roses. They're easy to identify by the way the roses bloom on the bush. Rather than one bloom per stem, shrub roses sprout blooms in clusters, and they can grow up to 6 feet tall and 15 feet wide.
