- FRP products
- Road Barrier

POLYCOM®

WATER TANK SUPPLIER IN UAE

GRP is used by Polycom Plastic Industries to create high-quality water tanks that are simple to maintain, resistant to rust, and leak-proof. These GRP water tanks are constructed using the HAND LAY UP method. It comes in both horizontal and vertical types, either cylindrical or rectangular. We are able to meet industrial and commercial requirements with our extensive experience and our superior selection of GRP storage tanks. These can be used to store sweet water, treated water, or drinking water. Together, these factors establish us as one of the UAE's top suppliers of GRP water tanks. Our GRP tanks are designed to be used above, below, and on the ground.
