

# GOLD PLATED NECKLACE ONLINE SHOPPING

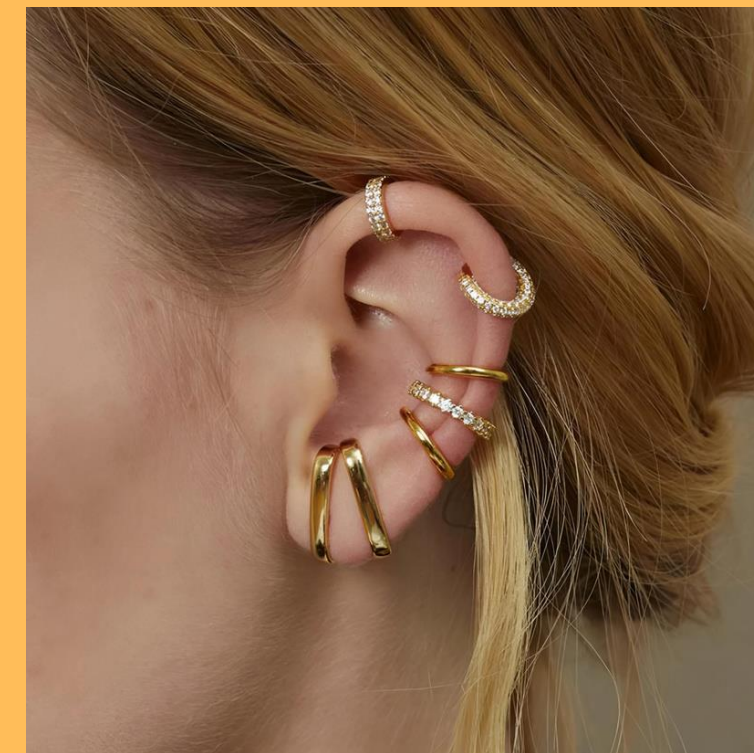

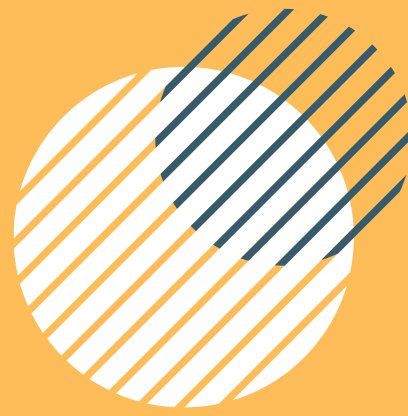

# ABOUT US

Kalopsia is a new fine jewelry brand which established by 2017. A minimalist and luxury concept, it's popular among young ladies all over the world.

With our extensive experience with jewelry material, we are able to keep its gold color brand new and non-fade for a very long time. Compared with real gold, PVD technology achieves this quickly and at a competitive price.

We develop a lot of stainless steel jewelry and update the range of products every week to meet the demands of fast fashion markets such as GCC, Middle East, Europe, and America.
