

## Transform Your Body with EmSculpt Neo at Opulence Chicago LLC in the West Loop

In the ever-evolving world of body contouring, [EmSculpt Neo West Loop](#) has emerged as a groundbreaking treatment that combines muscle-building and fat-reducing technology. Located in the vibrant West Loop neighborhood, [Opulence Chicago LLC](#) is proud to offer this innovative solution for those seeking to enhance their physique without the need for invasive procedures.

### What is EmSculpt Neo?

EmSculpt Neo is a non-surgical body sculpting treatment that uses a combination of high-intensity focused electromagnetic (HIFEM) energy and radiofrequency (RF) to target both fat and muscle. This dual-action approach allows patients to achieve impressive results—reducing stubborn fat while simultaneously building muscle tone.

### How Does It Work?

The treatment works by stimulating supramaximal muscle contractions, which are far more intense than what can be achieved through regular exercise. This results in increased muscle mass and enhanced definition in targeted areas, such as the abdomen, buttocks, thighs, and arms. Meanwhile, the RF component heats the underlying fat cells, leading to their eventual elimination from the body.

### Benefits of EmSculpt Neo

**Dual Action:** Simultaneously burns fat and builds muscle.

**Quick Treatments:** Sessions typically last around 30 minutes, making it easy to fit into a busy schedule.

**Long-Lasting Results:** With proper diet and exercise, results can be maintained for months after the treatment.

## **Why Choose Opulence Chicago LLC?**

At Opulence Chicago LLC, we prioritize client satisfaction and safety. Our experienced team is dedicated to providing personalized care tailored to your individual goals. We utilize state-of-the-art equipment and techniques to ensure you receive the best possible results from your EmSculpt Neo treatment.
