In today's fast-paced world, traditional values are gradually being replaced by modern conveniences. However, some timeless elements remain ever-relevant, especially when it comes to sustainable living. One such example is the [Gulak](#), a simple yet symbolic earthen piggy bank that has been a part of Indian culture for generations. Earthan.in, a brand committed to promoting eco-friendly and sustainable products, brings the charm of this ancient tradition into the digital age with their Gulak Online initiative.

The Tradition of Gulak

The Gulak has long been a part of Indian households, symbolizing the importance of savings and financial discipline. Made from clay, this eco-friendly piggy bank is not just a tool for saving money but also a reminder of the values of thriftiness and sustainability. Traditionally, the Gulak was a staple in homes where parents taught their children the

importance of saving from a young age, allowing them to deposit coins as a habit-forming practice. Over time, this practice has instilled financial prudence in individuals.

In today's digital world, where cash has been replaced by cards and e-wallets, the charm of the Gulak remains as a nostalgic piece of heritage, reminding us of simpler times and the virtues of saving money.
