

# Do You Need 316 Stainless Steel Cleanroom Tables at Budget-friendly Price?

Superlift Material Handling offers 316 stainless steel cleanroom tables designed for heavy-duty applications. Since these are clean room compliant, there is no chance of corrosion or other added issues in the longer application. Due to the outstanding design, they can easily handle loads up to 4,000 lbs. Visit the website or dial 1.800.884.1891 for more information!

Cleanroom storage cabinets with 316 stainless steel construction are best used in the food and pharmaceutical sectors. These are sturdy and brilliantly designed to withstand any harassing condition. Superlift Material Handling offers these cabinets a custom design option. Visit the website or dial 1.800.884.1891 for more information!

Regarding pharmaceutical or food processing units, cleanliness remains the main priority. We at Superlift Material Handling offer **316 stainless steel cleanroom shelves** designed to match your storage requirement while maintaining maximum cleanliness without causing any reaction with water or other chemicals. Visit the website or dial 1.800.884.1891 for more information!

Pharmaceutical and food processing units require such equipment free from corrosion and should meet their production requirements. In such condition, 316 stainless steel cleanroom carts are best for use. These are made for heavy-duty applications and can deliver the best possible result. Contact Superlift Material Handling at 1.800.884.1891 for more information!
