ABOUT US

Earthan, founded by Deeksha S. Gupta in Jaipur in 2021, is a lifestyle brand that beautifully marries the legacy of Indian handicrafts with contemporary design. By collaborating with regional artisans, Earthan revitalizes traditional block printing and stoneware pottery, offering a modern twist on classic techniques. Our intricate designs take more than 2-3 months of brainstorming, inspired by the traditional indigenous Jaipuri school of fabrics and artisanal skills, which we believe would be worthy of your time, money, and space.
